

# KUNIMOTO ALBERTA

## Newsletter

Follow us on twitter @KAIS\_Kunimoto

**Just a quick  
update on what  
we've been up to.**

**Thank you for  
letting us be part  
of your daughter's  
education!**

### Conversation Club

The girls have been attending a weekly conversation club to increase their confidence with speaking.

Sometimes we play games, try questioning and guessing challenges and some days we just talk about a topic. The students have already shown a lot of improvement.

### English Library

We have created an easy access English library full of books of all levels and topics for the students to use. The more exposure they have to English, the better their vocabulary and understanding of concepts will be. Please encourage your daughter to choose a book and tell you all about it.

**Making Christmas Cards to  
Exchange with Alberta  
Students**

**Practicing Questioning Techniques in  
a 'Guess The Present' Game**

**Christmas  
Activities**

# CLASSES AT KUNIMOTO

We still continue to focus on problem solving, collaboration and inquiry.

## Social Studies Gamification

Learning about collective rights and Indigenous history through board games.

## Project Based Math

As the final project in our Pythagora's theorem unit, the grade 8's built a zipline designed for fun and safety. This project involved budgeting, design and modification, calculations and a lot of trial and error.

## English Language Arts

Remembrance Day Poetry and Messages of Peace

Book Studies and Sharing Circles

## Inquiry Based Science

### Evidence of Chemical reactions

### Microscopy

### Cell Transport

### Optics

## Oh Canada!

Trips to Canadian Embassy

Speech by Female Scientist and Environmentalist Innis Dagg

### Tour of Embassy
